2026 OHA D1 COACH CLINIC

The OHA, as part of its Coach Development programme, is pleased to announce the opening of registration for its summer 2026 Development 1 (D1) Coach Clinic.

This is a coach's initial step to pursuing NCCP/Hockey Canada D1-Certified status.

Registration for the clinic includes an on-demand module, part of the Hockey Canada Learning Lab. The on-demand module provides coaches with the flexibility to complete the requirements at their convenience. The second part of the D1 Clinic is a traditional in-person day that includes classroom and on-ice development.

The OHA D1 Clinic is delivered within a junior hockey context and is appropriate for coaches who will be active with any OHA junior or senior team for the upcoming 2026-27 season.

Any coach of a team in the GOHL, PJHL, Allan Cup Hockey or OEHL who are, or will be fulfilling the role of Head Coach, **must** be D1 Certified. *It is strongly encouraged that any assistant coach in the OHA pursue their D1 Training and Certification.*
